

How to add a SoftChalk SCORM Object to your eCampus Course

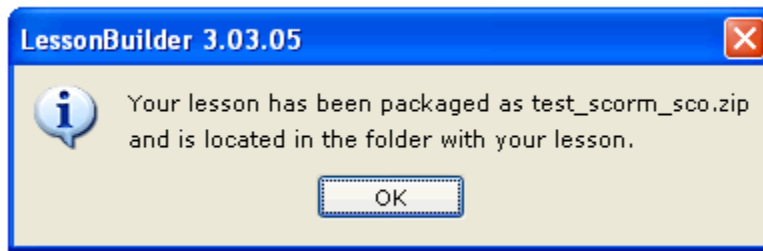

Step 1: When creating your **QuizPopper** or **Activity** in SoftChalk, make sure to set a point value if you want it to be a graded SCORM object.

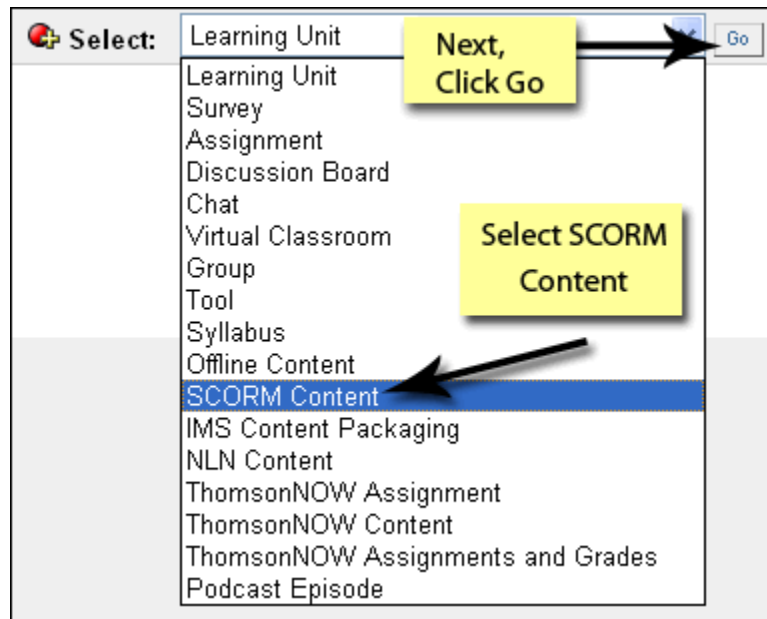

Step 2: When you have created the lesson, you must package it as a SCORM object. Click **File, Package Lesson**, and select **Scorm 1.2 Format**.

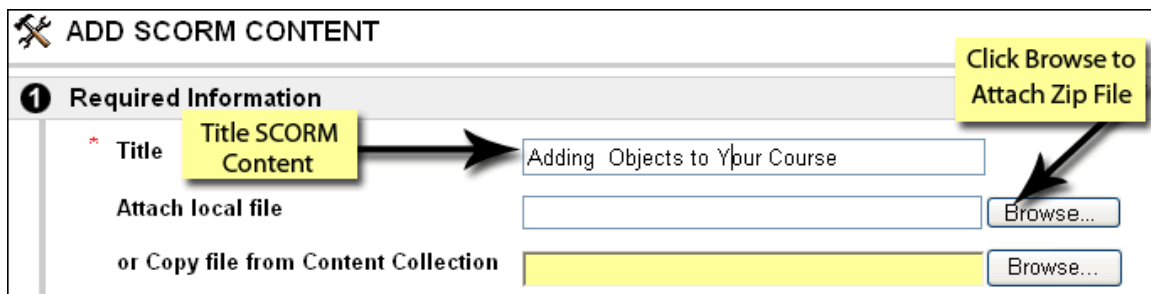

Step 3: The SCORM zip file will be placed in the folder where you saved the lesson. You will see a message like the picture below. Click **OK**.

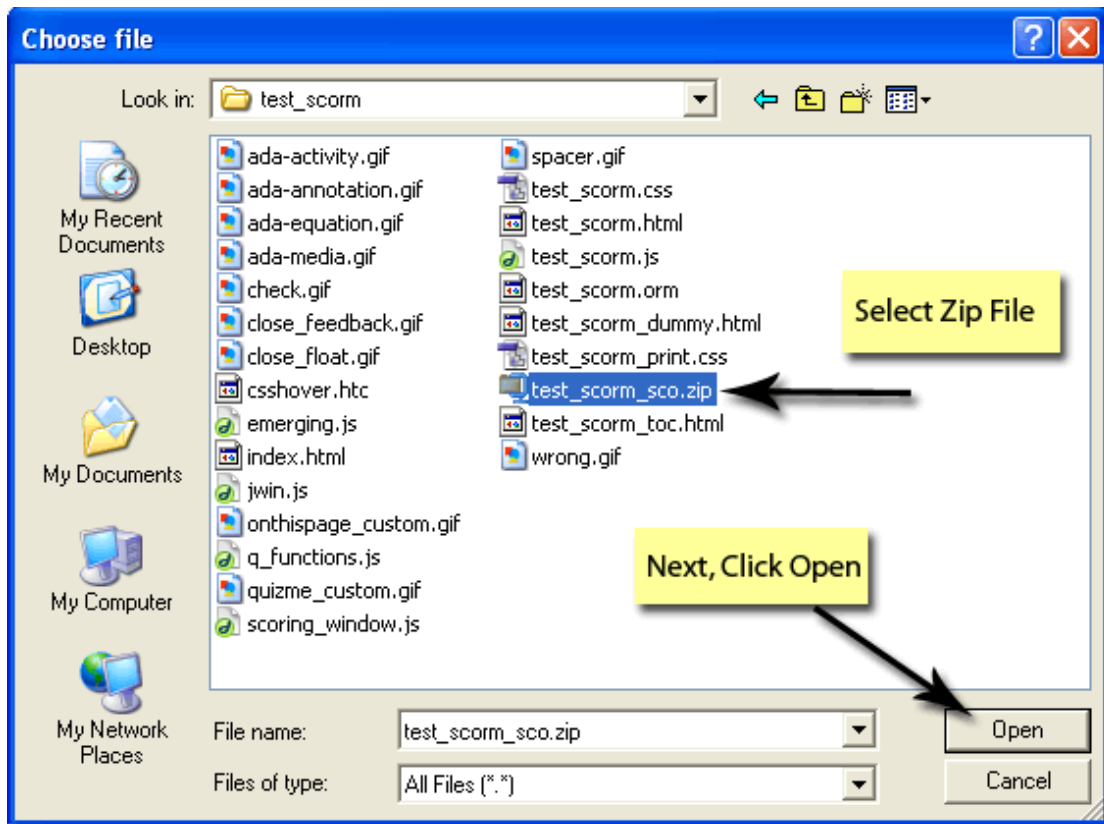

Step 4: Log into your eCampus Course. Go to the **Control Panel** and select the area that you want to place your lesson in, example **Assignments**. On the top right hand side of the screen, click the drop down menu and select **SCORM Content**. Click the **Go** button.

Step 5: In the first section, **Title** your SCORM lesson. Click the **Browse** button to attach the SCORM zip file.

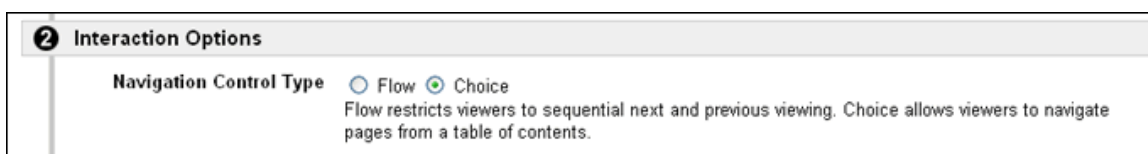

Step 6: Find the SCORM zip file located in your lesson folder, select it and click **Open**.

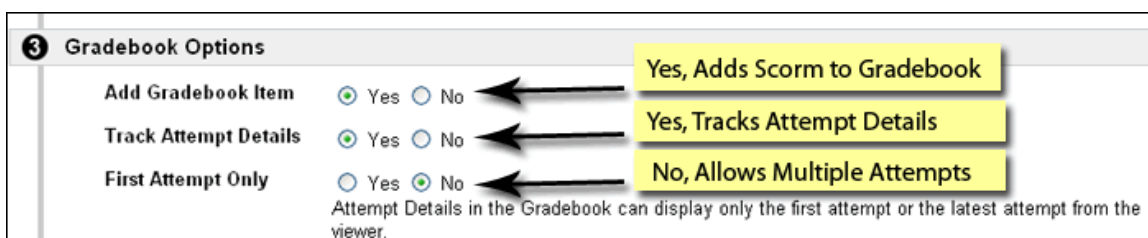

Step 7: In the second section, choose **Choice** unless you want to force sequential viewing.

Note: Choosing **Flow** is not recommended, because the user can't go back and review a section without starting at the beginning each time.

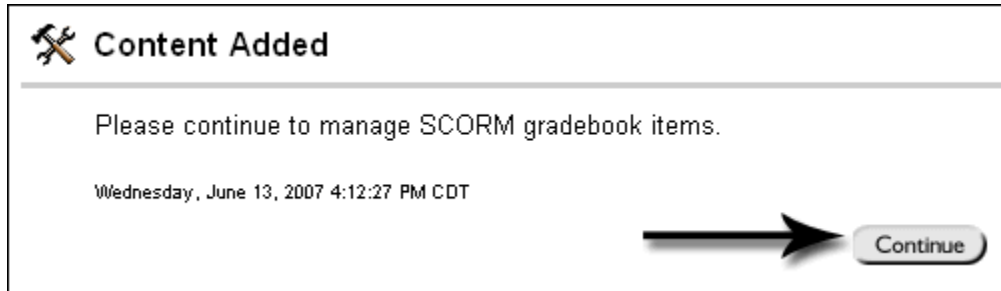

Step 8: In the third section, Click **Yes** to **Add Gradebook Item**. It is recommended to click **Yes** to **Track Attempt Details**. You can decide if you want to have them attempt the exercise more than once in the **First Attempt Only** option.

Note: The **Gradebook** will only record the first attempt or the latest attempt of the user not the best score.

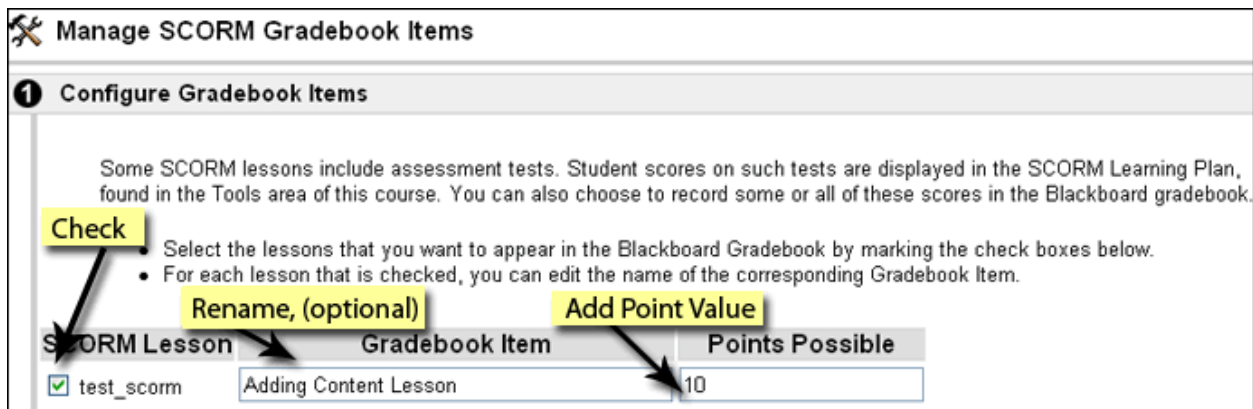

Step 9: Click **Continue** to manage your SCORM **Gradebook** items.

Step 10: Check the file name that you want to add to the **Gradebook** in the **SCORM Lesson** option. Rename the lesson in the **Gradebook Item** box so that it will be more recognizable to you and your students in the **Gradebook**. Add a point value in the **Points Possible** box.

Note: You need to make sure that the point value matches, the total number of points that you set up in your SoftChalk lesson.

Step 11: Click **OK** to finalize the addition to the **Gradebook**.
